Author comment on "Structural, petrophysical, and geological constraints in potential field inversion using the Tomofast-x v1.0 open-source code" by Jérémie Giraud et al., Geosci. Model Dev. Discuss., https://doi.org/10.5194/gmd-2021-14-AC1, 2021

Dear Reviewer,

Thank you for taking the time to review our submission. We are pleased to read that you are of the opinion that it has reached its objective. We have started correcting the minor language mistakes and typos you mention and will proceed carefully with the next stage of the review process.

Thanks, and regards,

The Authors
