Community comment on "Simulation of NMR spectra at zero and ultralow fields from A to Z – a tribute to Prof. Konstantin L'vovich Ivanov" by Quentin Stern and Kirill Sheberstov, Magn. Reson. Discuss., https://doi.org/10.5194/mr-2022-18-CC6, 2023

Thanks for that update. It is useful to know of it. And yes indeed suplemental information is a good method for exposing and elaborating on the details.
