Author comment on "Opinion: Papers that shaped tropospheric chemistry" by Paul S. Monks et al., Atmos. Chem. Phys. Discuss.,
<https://doi.org/10.5194/acp-2020-1266-AC10>, 2021

Thank-you for the comments. With respect to the Lovelock ECD work, the reference and description has been added to the *VOC section*. The extra information on the MSA/DMA Lovelock work has been added to the description of CLAW hypothesis. Further, a small section on lead including the suggested works have been added to the *foundations* section.
