Author comment on "Opinion: Papers that shaped tropospheric chemistry" by Paul S. Monks et al., Atmos. Chem. Phys. Discuss.,
<https://doi.org/10.5194/acp-2020-1266-AC11>, 2021

Thank-you for the comments. As suggested the Stohl STE review has been moved to the section that discusses STE. It was clear that the observational perspective in respect of long-range transport was missing, therefore the suggested references have been added to section 2.16. Small update on methodologies for trajectories added.
