Comment on acp-2021-306

Anonymous Referee #1

Referee comment on "The impact of nitrogen and sulphur emissions from shipping on exceedances of critical loads in the Baltic Sea region" by Sara Jutterström et al., Atmos. Chem. Phys. Discuss., <https://doi.org/10.5194/acp-2021-306-RC1>, 2021

The paper addresses the effects of shipping emissions on deposition and critical load exceedances in the Baltic sea region. It examines the effects of different scenarios for emission reductions.

It is well written and addresses an interesting topic.
