Author comment on "Technical note: Quality assessment of ozone reanalysis products and gap-filling over subarctic Europe for vegetation risk mapping" by Stefanie Falk et al., Atmos. Chem. Phys. Discuss., <https://doi.org/10.5194/acp-2021-527-AC1>, 2021

We thank anonymous referee #1 for their useful comments.

We will address the specific comments in detail in our final revision of the manuscript.

Here, we shall give a brief response to questions where it seems appropriate (see attachment).

We have already tended to minor, technical issues.

Please also note the supplement to this comment:
