Author comment on "The impact of peripheral circulation characteristics of typhoon on sustained ozone episodes over the Pearl River Delta region, China" by Ying Li et al., Atmos. Chem. Phys. Discuss., <https://doi.org/10.5194/acp-2021-618-AC3>, 2022

Dear Editor,

We are grateful to the editors and the reviewers for their helpful comments and suggestions. We have revised through the manuscript following the reviewers' comments and addressed all the critical comments.

We hope that you and the referees will find the changes satisfactory and we are looking forward to hearing from you soon.
