Author comment on "Reassessment of the radiocesium resuspension flux from contaminated ground surfaces in eastern Japan" by Mizuo Kajino et al., Atmos. Chem. Phys. Discuss., <https://doi.org/10.5194/acp-2021-687-AC2>, 2021

Dear anonymous referee #2,

We are very grateful for your detailed review and constructive comments and your time for RC2. Thanks to your review, our manuscript has been substantially improved, especially for readability (and I am very sorry for many typos which took your time). The revised manuscript is ready and we have considered all your comments in the revised manuscript. Attached please find the point-by-point responses to your comments. We look forward to your second review.

Thank you very much for your time, in advance.

Best regards,

Mizuo Kajino
