Author comment on "Atmospheric oxidation capacity and ozone pollution mechanism in a coastal city of southeastern China: analysis of a typical photochemical episode by an observation-based model" by Taotao Liu et al., Atmos. Chem. Phys. Discuss., <https://doi.org/10.5194/acp-2021-764-AC1>, 2021

---

We thank you for the comments which are helpful for us to improve the paper. We have addressed the comments and revised the manuscript accordingly. The supplement is the file of Response to Reviewers' Comments. We have studied comments carefully and have made corrections which we hope meet with approval. We hope the new version would satisfy the questions of the reviewers.

Please also note the supplement to this comment:
