## Reply to the Comments on acp-2021-782

Ka Ming Fung et al.

Author comment on "Exploring dimethyl sulfide (DMS) oxidation and implications for global aerosol radiative forcing" by Ka Ming Fung et al., Atmos. Chem. Phys. Discuss., https://doi.org/10.5194/acp-2021-782-AC1, 2021

We thank the reviewers for their comments and suggestions to improve the manuscript. We have prepared, in the Supplement zip file, 1) our point-by-point responses, 2) a proposed revised manuscript (with and without track change), and 3) an updated Supplementary Information (with and without track change) for the Editor's and reviewers' further consideration.

Please also note the supplement to this comment: <a href="https://acp.copernicus.org/preprints/acp-2021-782/acp-2021-782-AC1-supplement.zip">https://acp.copernicus.org/preprints/acp-2021-782/acp-2021-782-AC1-supplement.zip</a>
