Community comment on "Contributions of equatorial waves and small-scale convective gravity waves to the 2019/20 quasi-biennial oscillation (QBO) disruption" by Min-Jee Kang and Hye-Yeong Chun, Atmos. Chem. Phys. Discuss.,
<https://doi.org/10.5194/acp-2021-85-CC1>, 2021

The authors would like to thank reviewer1 for providing valuable comments.

We will post responses to the reviewer's comments and the manuscript modified accordingly at the end of the discussion period.

Sincerely,
Min-Jee Kang
