Comment on acp-2021-889

Peter Haynes (Editor)

Editor comment on "Evolution of turbulent kinetic energy during the entire sandstorm process" by Hongyou Liu et al., Atmos. Chem. Phys. Discuss.,
<https://doi.org/10.5194/acp-2021-889-EC1>, 2022

You will see that a second referee has now posted a comment on your paper. As responsible Editor I regret the time that it has taken to find a second referee (and I am very grateful to the referee who agreed for providing their report promptly).

Please now consider the two referees' reports together and provide a revised version of the paper + responses to referees.
