Comment on acp-2021-919

Adam Milsom et al.

Author comment on "The impact of molecular self-organisation on the atmospheric fate of a cooking aerosol proxy" by Adam Milsom et al., Atmos. Chem. Phys. Discuss.,
<https://doi.org/10.5194/acp-2021-919-AC1>, 2022

We are grateful for the constructive and helpful comments made by the two reviewers. In response, we are attaching a 16-page document addressing all comments and suggestions incl. additional model runs and further figures that will also be included in the final paper.

Please also note the supplement to this comment:
