Editor comment on "Diurnal evolution of negative atmospheric ions above the boreal forest: from ground level to the free troposphere" by Lisa J. Beck et al., Atmos. Chem. Phys. Discuss., <https://doi.org/10.5194/acp-2021-994-EC1>, 2022

Dear All,

Given the unique set of measurements provided here, I would like to consider this manuscript for publication as a Research article (and not a Measurement Report) if you can provide more context on atmospheric implications of the observed trends. Please let me know if you have any questions.
