Ashot Chilingarian (Referee)

Referee comment on "Continental thunderstorm ground enhancement observed at an exceptionally low altitude" by Ivana Kolmašová et al., Atmos. Chem. Phys. Discuss., <https://doi.org/10.5194/acp-2022-125-RC2>, 2022

I'm satisfied with the explanations given by the authors and by modifications they made to the manuscript.

I recommend the paper for publication.
