Author comment on "Hemispheric-wide climate response to regional COVID-19-related aerosol emission reductions: the prominent role of atmospheric circulation adjustments" by Nora Lea Sophie Fahrenbach and Massimo Alberto Bollasina, Atmos. Chem. Phys. Discuss., https://doi.org/10.5194/acp-2022-558-AC1, 2022

Thank you very much for the useful comments, we will implement them in the revised version of the manuscript.
