Yao Ge et al.

Author comment on "Global sensitivities of reactive N and S gas and particle concentrations and deposition to precursor emissions reductions" by Yao Ge et al., Atmos. Chem. Phys. Discuss., https://doi.org/10.5194/acp-2022-657-AC1, 2023

We thank the reviewer for their time spent reading our manuscript and for their recommendation for publication upon addressing their comments. In the attached response file, we include all the reviewer's comments and provide in blue text our point-by-point responses. Please note that the line numbers mentioned in our responses refer to the clean revised manuscript (not the track-changed version).

Please also note the supplement to this comment:
