Received and published: 27 September 2017

First we would like to thank Referee #1 for the time dedicated to provide the comments and suggestions for the interactive discussion. The comments had definitely improved the manuscript clarity and overall presentation. We hope that the updated version is satisfactory. Below you will find a point by point description of how each comment and suggestion was addressed. Please see the attached pdf file for the detailed answer

Please also note the supplement to this comment:
