Author comment on "The FORUM end-to-end simulator project: architecture and results"
by Luca Sgheri et al., Atmos. Meas. Tech. Discuss.,
<https://doi.org/10.5194/amt-2021-196-AC1>, 2021

Thank you for reading a quite long paper and suggesting changes. Please find the detailed answers to your points and the actions taken to amend the paper. Since some comments of both referees addressed the same issue, we prefer to post a unique response, though of course we separated the comments of each referee.

Please also note the supplement to this comment:
