Author comment on "Inter-comparison of wind measurements in the atmospheric boundary layer and the lower troposphere with Aeolus and a ground-based coherent Doppler lidar network over China" by Songhua Wu et al., Atmos. Meas. Tech. Discuss., <https://doi.org/10.5194/amt-2021-260-AC1>, 2021

Dear Editor and Reviewers,

Thank you for handling and reviewing our manuscript. We greatly appreciate the substantial amount of time and effort that you dedicated to this review process.

We have revised the manuscript according to your comments point-to-point and the responses are presented below.

It should be introduced that the serial numbers of the figures and the tables are changed in the revised manuscripts.

The response to RC1 is uploaded as supplement.

Many thanks and best regards.

Songhua Wu

On behalf of the co-authors
