Matthias Schneider et al.

Author comment on "Synergetic use of IASI profile and TROPOMI total-column level 2 methane retrieval products" by Matthias Schneider et al., Atmos. Meas. Tech. Discuss., https://doi.org/10.5194/amt-2021-31-AC1, 2021

Many thanks to Thomas for his detailed inspection of the Appendix. The respective discussions with him have been extremely helpful. Please find attached a revised Appendix that considers the major remarks of Thomas. In particular Appendix A2 has been comprehensively revised.

While writting this reply I get the note "please do NOT submit your revised manuscript here as supplement". I hope that I make no mistake by uploading the revised Appendix. My intention is simply to contribute to the discussion and show the other referees (and interested readers) the progress achieved so far during the discussion phase.

Best regards, Matthias Schneider
