Dear Dr. Riese,

we would like to thank the three referees for the time they put in to review our manuscript, as well as you for taking on the role of editor. We are especially grateful to the reviewers for highlighting the need for major changes in our study, and we intend to adjust our approach and methods based on their comments. Unfortunately the time we need to apply said changes far exceeds the time given by the journal for the revision. We have thus decided to withdraw the manuscript, and resubmit a revised version at a later date.

Kind regards,
Giovanni Chellini and Kerstin Ebell
