Referee comment on "In situ particle sampling relationships to surface and turbulent fluxes using large eddy simulations with Lagrangian particles" by Hyungwon John Park et al., Atmos. Meas. Tech. Discuss., <https://doi.org/10.5194/amt-2022-231-RC3>, 2022

I believe the authors misplaced the responses to the two reviewers.

Nevertheless, the authors of this article have thoroughly answered all my questions with sufficient details.

Once again, It's such a pleasure to read this comprehensive study. Thank you.
