Author comment on "Predictability of variable solar–terrestrial coupling" by Ioannis A. Daglis et al., Ann. Geophys. Discuss., <https://doi.org/10.5194/angeo-2020-94-AC2>, 2021

We thank the reviewer for the kind words and for the detailed comments, which have helped us to improve the manuscript considerably. The reviewer is absolutely correct in that we need many following papers that will propose concrete research action plans with quantitative targets to answer the questions of PRESTO.

Best regards

Ioannis A. Daglis, on behalf of all authors
