Comment on angeo-2020-94

Anonymous Referee #1

Referee comment on "Predictability of variable solar–terrestrial coupling" by Ioannis A. Daglis et al., Ann. Geophys. Discuss., <https://doi.org/10.5194/angeo-2020-94-RC1>, 2021

This review paper aims to introduce the next scientific program (NSP) of SCOSTEP. Title of the NSP is Predictability of the variable Solar-Terrestrial coupling (PRESTO). This paper is well written as it follows detailed discussions by the SCOSTEP members. This reviewer has no major comments, and recommends publication of this paper. Followings are minor comments from the reviewer, which may be considered while refining the paper before publication. I attach comments by the supplement PDF file.

Please also note the supplement to this comment:
