Qiugang Zong

Author comment on "Magnetospheric response to solar wind forcing: ultra-low-frequency wave-particle interaction perspective" by Qiugang Zong, Ann. Geophys. Discuss., <https://doi.org/10.5194/angeo-2021-57-AC4>, 2022

The author really appreciates the referee's valuable comments. We has revised the manuscript accordingly.

I upload the revised manuscript as a supplement

Please also note the supplement to this comment:
