Reply on RC1

Jun-Young Hwang et al.

Author comment on "Propagating characteristics of mesospheric gravity waves observed by an OI 557.7 nm airglow all-sky camera at Mt. Bohyun (36.2°N, 128.9°E)" by Jun-Young Hwang et al., Ann. Geophys. Discuss.,
<https://doi.org/10.5194/angeo-2021-65-AC2>, 2022

I apologize that the file attachment was missing when I submitted the reply to RC#1.

Here I attach the file as the response to RC#1.

Thank you for improving the paper.

Please also note the supplement to this comment:
