Author comment on "Ionospheric plasma flows associated with the formation of the distorted nightside end of a transpolar arc" by Motoharu Nowada et al., Ann. Geophys. Discuss., <https://doi.org/10.5194/angeo-2021-69-AC1>, 2022

We appreciate very much the referee's kind and careful comments and useful suggestions to our manuscript entitled "Ionospheric plasma flows associated with the formation of the distorted nightside end of a transpolar arc (ANGEO-2021-69)". We have revised the manuscript in accordance with each of the comments and suggestions from Referee1.

Please find an attached PDF file, including the replies to RC1 (Reply_To_RC1.pdf)

Best Regards.

Motoharu Nowada as corresponding author.
