Author comment on "Ionospheric plasma flows associated with the formation of the distorted nightside end of a transpolar arc" by Motoharu Nowada et al., Ann. Geophys. Discuss., <https://doi.org/10.5194/angeo-2021-69-AC2>, 2022

We appreciate very much the referee's kind and useful suggestion to our manuscript entitled "Ionospheric plasma flows associated with the formation of the distorted nightside end of a transpolar arc (ANGEO-2021-69)". We have revised the manuscript in accordance with the suggestion from Referee2.

Please find an attached PDF file, including the replies to RC2.

Best Regards.
