Referee comment on "Multi-instrument observations of polar cap patches and traveling ionospheric disturbances generated by solar wind Alfvén waves coupling to the dayside magnetosphere" by Paul Prikryl et al., Ann. Geophys. Discuss.,
<https://doi.org/10.5194/angeo-2022-14-RC3>, 2022

The authors have responded adequately to my comments. I find the paper interesting and acceptable for publication in Annales Geophysicae.
