Comment on angeo-2022-2

Nick Sergis (Editor)

Editor comment on "Fine structure and motion of the bow shock and particle energisation mechanisms inferred from Magnetospheric Multiscale (MMS) observations" by Krzysztof Stasiewicz and Zbigniew Kłos, Ann. Geophys. Discuss.,
<https://doi.org/10.5194/angeo-2022-2-EC1>, 2022

The Topical Editor would like to thank the reviewers for their time and effort to evaluate the subject manuscript. Given that the received evaluation reports are completely opposite with regards to their final suggestion, the Topical Editor will continue the evaluation process by employing (at least) one more reviewer.
