Comment on angeo-2022-2

Nick Sergis (Editor)

Editor comment on "Fine structure and motion of the bow shock and particle energisation mechanisms inferred from Magnetospheric Multiscale (MMS) observations" by Krzysztof Stasiewicz and Zbigniew Kłos, Ann. Geophys. Discuss.,
<https://doi.org/10.5194/angeo-2022-2-EC2>, 2022

The Topical Editor would like to thank all three reviewers of this manuscript for their effort and high quality evaluation they provided, as well as the authors for their cooperation throughout the process.
