Bernard Boudreau (Referee)

Referee comment on "New insights into large-scale trends of apparent organic matter reactivity in marine sediments and patterns of benthic carbon transformation" by Felipe S. Freitas et al., Biogeosciences Discuss., <https://doi.org/10.5194/bg-2020-435-RC2>, 2021

Based on your reply, I think the revised manuscript will be an outstanding paper.

Bernie Boudreau
