Author comment on "Methane gas emissions from savanna fires: what analysis of local burning regimes in a working West African landscape tell us" by Paul Laris et al.,
Biogeosciences Discuss., <https://doi.org/10.5194/bg-2020-476-AC6>, 2021

Specifically, for the value on line 28, we have removed reference to this and decided to recommend use of the seasonal values of methane EF.
