Referee comment on "Ideas and perspectives: Ushering the Indian Ocean into the UN Decade of Ocean Science for Sustainable Development (UNDOSSD) through marine ecosystem research and operational services – an early career's take" by Kumar Nimit, Biogeosciences Discuss., <https://doi.org/10.5194/bg-2020-492-RC3>, 2021

Knowing that Nimit is currently at sea, and may not see these comments in a timely matter, I'd just mention that he was provided most of the language comments in a marked up copy, and is working on them. Thanks for the feedback.
