Comment on bg-2021-104

Markus Kienast (Editor)

Editor comment on "Insights into nitrogen fixation below the euphotic zone: trials in an oligotrophic marginal sea and global compilation" by Siqu Wu et al., Biogeosciences Discuss., <https://doi.org/10.5194/bg-2021-104-EC1>, 2022

Dear authors,

Despite my best efforts, I have not been able to secure a second referee report for your contribution, unfortunately. In order to move your manuscript along, we will close the discussion with only one report now. I would like to apologize for the most unfortunate delay.

Please upload your response to the first referee report at your earliest convenience.

Sincerely,

Markus
