Author comment on "Comparing CLE-AdCSV applications using SA and TAC to determine the Fe binding characteristics of model ligands in seawater" by Loes J. A. Gerringa et al., Biogeosciences Discuss., https://doi.org/10.5194/bg-2021-134-AC1, 2021

Dear Dario Omanović. Thank you for your comment, thank you for your earlier elaborate comments, which improved the manuscript considerably.
