Author comment on "Oceanic primary production decline halved in eddy-resolving simulations of global warming" by Damien Couespel et al., Biogeosciences Discuss., <https://doi.org/10.5194/bg-2021-14-AC1>, 2021

Dear Scott C. Doney

Thanks again for this positive and helpful review of our manuscript. Please find in supplement a reply to the issues you raised and the way we will address them in the revised version of the manuscript.

Sincerely,

Damien Couespel, Marina Lévy and Laurent Bopp
