Thorben Dunse et al.

Author comment on "Regional-scale phytoplankton dynamics and their association with glacier meltwater runoff in Svalbard" by Thorben Dunse et al., Biogeosciences Discuss., <https://doi.org/10.5194/bg-2021-181-AC1>, 2021

We would like to thank all three reviewers for their thorough reviews and suggestions. We are glad that the overall response by the reviewers is positive. The constructive feedback and specific suggestions will help us to improve the clarity of the paper during the revision.

We address all three reviews, independently – see separate pdf files.

Please also note the supplement to this comment:
