Author comment on "Estimating dry biomass and plant nitrogen concentration in pre-Alpine grasslands with low-cost UAS-borne multispectral data – a comparison of sensors, algorithms, and predictor sets" by Anne Schucknecht et al., Biogeosciences Discuss., <https://doi.org/10.5194/bg-2021-250-AC1>, 2022

Dear Andreas Ibrom,

Thank you for handling our manuscript. We also thank referee #1 for the constructive comments. Please find our response and how we want to address the raised issues in a revised version of the manuscript in the attached file. We are confident that we can address all comments of referee #1.

On behalf of all co-authors and with kind regards,

Anne Schucknecht

Please also note the supplement to this comment:
