Referee comment on "Dynamics of rare earth elements and associated major and trace elements during Douglas-fir (*Pseudotsuga menziesii*) and European beech (*Fagus sylvatica* L.) litter degradation" by Alessandro Montemagno et al., Biogeosciences Discuss., <https://doi.org/10.5194/bg-2021-268-RC3>, 2022

Thanks to the authors for replying to my comments. Once the authors incorporate the changes suggested in their replied letter, I recommend this paper for publication with no additional comments/requests.
