Author comment on "Improving the stomatal resistance, photosynthesis and two big leaf algorithms for grass in the regional climate model COSMO-CLM" by Evgenii Churiulin et al., Biogeosciences Discuss., https://doi.org/10.5194/bg-2021-294-AC3, 2022

Dear Kirstem Thonicke,

We would like to express our thanks and appreciation for this information and decision.

Faithfully,

Evgenii Churiulin
