Complete Figure 1

Birgit Koehler et al.

Author comment on "Species richness and functional attributes of fish assemblages across a large-scale salinity gradient in shallow coastal areas" by Birgit Koehler et al.,
Biogeosciences Discuss., <https://doi.org/10.5194/bg-2021-302-AC1>, 2021

Dear editors and reviewers.

Unfortunately, I uploaded an incomplete version of Figure 1 during submission, lacking panels (b) and (c).

Please find the complete Figure 1 here, and consider it during review. The figure legend in the manuscript is correct.

I apologize for this inconvenience!

Best regards,

Birgit Koehler
