Community comment on "Technical note: A view from space on global flux towers by MODIS and Landsat: the FluxnetEO data set" by Sophia Walther et al., Biogeosciences Discuss., <https://doi.org/10.5194/bg-2021-314-CC1>, 2021

Is this dataset meaningfully different from what the ORNL DAAC fixed site subsets tool <https://modis.ornl.gov/sites/> has already provided for year now across 51 different networks (3153 sites) for MODIS, VIIRS, Daymet, SMAP, GEDI, and ECOSTRESS?
