Author comment on "Pioneer biocrust communities prevent soil erosion in temperate forests after disturbances" by Corinna Gall et al., Biogeosciences Discuss.,
<https://doi.org/10.5194/bg-2021-343-AC1>, 2022

Dear students and tutor of the course "Critical Thinking in Ecological and Environmental Sciences" at the University of Edinburgh,

thank you very much for taking the time to revise this preprint and for giving this positive evaluation with constructive comments. We were very pleased to see that our manuscript is an interesting topic for your course, and we appreciate your valuable suggestions for improving our manuscript. We will consider your comments and respond in detail soon.

Best regards,

Corinna Gall
