Sarah Waldo et al.

Author comment on "Temporal trends in methane emissions from a small eutrophic reservoir: the key role of a spring burst" by Sarah Waldo et al., Biogeosciences Discuss., <https://doi.org/10.5194/bg-2021-36-AC1>, 2021

Thank you for your thoughtful comments that were echoed by the other referees and will improve the revised manuscript. Please see attached document for the response to all RC.

Please also note the supplement to this comment:
