Author comment on "The application of dendrometers to alpine dwarf shrubs – a case study to investigate stem growth responses to environmental conditions" by Svenja Dobbert et al., Biogeosciences Discuss., <https://doi.org/10.5194/bg-2021-99-AC3>, 2021

We would like to thank all reviewers for their contribution to the discussion and helpful comments on our manuscript.

We revised our manuscript accordingly, paying special attention to writing style and clarity, and have the revised version ready for submission. Furthermore, we believe we were able to address all issues raised in the new manuscript, as well as in our detailed answers to reviewer 1.
