Nathan J. Tomczyk et al.

Author comment on "Contrasting activation energies of litter-associated respiration and P uptake drive lower cumulative P uptake at higher temperatures" by Nathan J. Tomczyk et al., Biogeosciences Discuss., <https://doi.org/10.5194/bg-2022-146-AC1>, 2022

We appreciate this review of our manuscript. Please see the attached document which includes a point-by-point response of how we would like to revise our manuscript to address this review.

Please also note the supplement to this comment:
