Comment on cp-2021-161

Fabrizio Marra et al.

Author comment on "Terrestrial records of glacial terminations V and IV and insights on deglacial mechanisms" by Fabrizio Marra et al., Clim. Past Discuss.,
<https://doi.org/10.5194/cp-2021-161-AC8>, 2022

Dear Alberto,

two months ago you told us that you would have provided your own formal review in less than a week, after which the discussion period will be closed.

No comment has been posted since then and you certainly have been prevented by important reasons.

However, we truly hope that the paper will not be rejected after this long wait and you will provide us with insightful review and instructions.

Kind regards,

Fabrizio
