Author comment on "Monitoring landcover change and desertification processes in northern China and Mongolia using historical written sources and modern vegetation indices" by Michael Kempf, Clim. Past Discuss., <https://doi.org/10.5194/cp-2021-5-AC11>, 2021

---

You are right, we should probably wait until the open discussion has ended during the first week of May. If the editor's decision is to submit a revised version of the MS, I would upload the version as soon as possible.

Would you be ok with this?

Many thanks again for the comments!
